Generating Facility Information

New Installation Modification New Owner of existing facility

Type of Generator: Solar Wind Other (describe) _____

Location on Property: _____ Electrical Permit # _____

Aggregate Nameplate Capacity: _____ (kW) Battery backup? Yes No

Estimated Installation Date: _____ Estimated Interconnection Date: _____

Installed By: _____

Equipment Information

Generator Information

Make: _____ Model: _____

Nameplate Output Rating: _____

Inverter Information

Make: _____ Model: _____

Nameplate Output Rating: _____

Compliance: IEEE 1547 IEEE 929 UL 1741

Transfer Switch Location: _____ Rating: _____

Lockable/Visible Disconnect Location: _____ Rating: _____

Interconnection Point: _____ Breaker size: _____

Please provide electrical schematics of entire system, digital photos, and generation expectations of the system.

Required Information

- Engineering Deposit of \$100
- Copy of Electric Permit from government agency
- Completed and Signed Interconnection or Net Metering Agreement
- One-Line Electrical Diagram - The one-line diagram, circuit diagrams
- Provided UL and IEEE listings on all equipment
- Onsite Testing and Inspection Approval before operation is permitted

Member Acknowledgement

I hereby certify that, to the best of my knowledge, the information provided in this Application is true. I agree to abide by United Electric Co-op, Inc's Net Metering Policy and Interconnection Agreement.

Applicant Signature: _____ Date: _____

Cooperative Approval

The Interconnection of the herein mentioned facility is approved. (Meets all requirements above)

General Manager Signature: _____ Date: _____
